

Leading SAFe® with SA Certification

Thriving in the digital age with business agility.

Training Overview

During this training, attendees gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®) and its underlying principles derived from Lean, Systems Thinking, Agile development, product development and DevOps.

Training Objectives

At the end of the training, trainees have a clear understanding about the following:

- Lead the transformation of an organisation to business agility with SAFe®
- Become a Lean-Agile Leader
- Understand customer needs with Design Thinking
- Enable Agile Product Delivery
- Implement Lean Portfolio Management

Target Audience

This training is intended for anyone who wants to have a basic understanding of Agile and Scrum. Participants typically include CEOs, CIOs, EPG/COE members, Portfolio Managers, Program Managers, Product Managers, Project Managers, Scrum Masters, Team Leads, Release Train Engineers, Business Analysts, Agile Coaches, Consultants, Change Agents, Solution or System Architects.

Prerequisites

All are welcome to attend the training, regardless of experience. However, the following prerequisites are highly recommended:

- 5+ years experience in software development, testing, business analysis, product or project management
- Experience in Scrum
